

Index of Knife Gate Valve

- ❖ Knife Gate Valve Manufacturer
- ❖ Knife Gate Valve India
- ❖ Dual Plate Non-Return Valves
- ❖ High Pressure Globe Valves
- ❖ Our Specialization

Knife Gate Valve Manufacturer

We are the foremost **knife gate valve manufacturer** of India that is used to regulate the flow of very viscous fluid via the knife shaped disc across the track of the flow. These are generally unidirectional and function as an outstanding hopper isolation valves with their ability to cut through the flowing media. We manufacture them qualitatively in adherence to the international quality norms such that they offer excellent functionality. They can be actuated with the aid of Pneumatic, electric and manual actuators.

Knife Gate Valve India

We are the leading supplier and exporter of **Knife Gate Valve in India**. Our products are fabricated with high grade raw material and components. They can be operated via hand wheel, Pneumatic as well as electric actuator. Our products are preferred for their outstanding performance in isolation and control in numerous forms of viscous media. Our products are liked for their excellent features, reliability, durability as well affordability.

Specifications:

- Excellent features
- Reliable and durable
- Durable

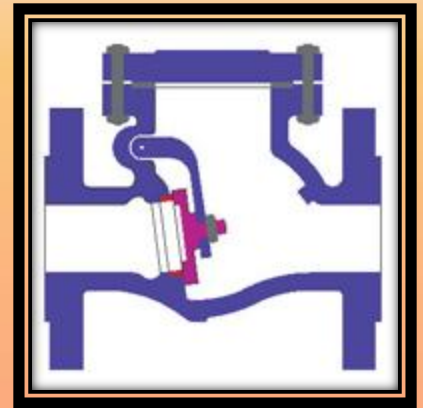

Dual Plate Non-Return Valves

We are the prime manufacturers and suppliers of **Dual Plate Non-Return Valves** in India. The main purpose of this kind of valve is to prevent the backflow so as to avert the water in a pipe-line from getting unclean. These valves can be installed horizontally and vertically. They are accurately engineered for outstanding performance and reliability. They provide high safety and are very lucrative. We offer quality tested products to our clients at market leading price rates.

Specifications:

- High safety
- Very lucrative
- Can be installed vertically & horizontally

High Pressure Globe Valves

FLOEC high pressure Globe Valves are exactly designed to assure 100% smooth flow area to minimize pressure drop across the Valve. The Precisely designed Seat and Packing material are given for superheated steam, high temperature oils and fluids to ensure that it is effortless to operate and have high durability. It is precisely machined and has a lapped backseat which helps in substituting Gland Packing once the Valve is in full stream. We offer them at exclusive price rates.

Specifications:

- Effortless to operate
- High durability
- Incredible functionality

Industrial Valves We Serve

Areas We are expert in:
Knife Gate Valve
Knife Gate Valve Manufacturer
Knife Gate Valve Exporter
Knife Gate Valve Supplier
Knife Gate Valve Ahmedabad
Knife Gate Valve India
Dual Plate Non-Return Valves
High Pressure Globe Valves
Lugged type Butterfly Valves
Angle Type Valves
